

Medicaid Estate Recovery Alert

The State of Indiana has just posted a Request For Proposal to hire attorneys to help recover assets from the families of deceased Medicaid beneficiaries. Proposals are due in by August 8, 2011. Medicaid beneficiaries and their families should now expect the State of Indiana to adopt a much more aggressive approach to Medicaid estate recovery starting this fall.

Please go to the Seminars & Materials Section of our website and scroll down to the August 14-15, 2008, presentation by Keith P. Huffman made at the Elder Law Masters Series seminar for more information about Medicaid estate recovery in Indiana. The topic of this presentation is appropriately named “The Tax Man Has Taken Every Thing I’ve Got and More.”
